San Klang, San Kamphaeng, Chiang Mai
50130, Thailand

SKILLS

HARD SKILLS

Programming Languages:

- TypeScript, Python, Java, C++ ,Swift

Backend & Database:

- NestJS, Node.js, Express.js, Laravel, Spring boot, PostgreSQL, Drizzle ORM, Prisma ORM , Oracle ,MySQL

Software Testing:

- Jest, Cypress, Selenium, Postman

Frontend Technologies:

- React, Next.js, Tailwind CSS, Inertia.js, HTML5, CSS3 , Vue.js

Tools & Infrastructure:

- Docker, Git, LaTeX

SOFT SKILLS

- Leadership, Project Management, Problem Solving, Critical Thinking , Time Management, Team Collaboration, Positive Attitude

EDUCATION

MONTFORT COLLEGE

2016 - 2021

Bachelor of Engineering (Computer Engineering) Chiang Mai University

- First Class Honors
- **GPA : 3.84**

2022 - 2025

LANGUAGE

Thai : Native

English : Intermediate

(CMU-eGrad : 390/599)

NATANAN TATANAN

A First-Class Honors Computer Engineering graduate driven by a passion for inclusive and accessible web development. Proven experience in delivering enterprise-grade projects, including SCMC's AssetManager and CCTV systems, alongside 'SkillBridge'—a platform empowering the elderly and disabled with equitable career opportunities. Seeking a **Web Services Administrator** to apply my expertise in building robust frontend and backend architectures and executing rigorous software testing to deliver highly efficient and reliable technical solutions.

EXPERIENCE

COMPETITIVE

- IEEEExtreme 19.0 programming competition that hosted +19,000 participants: Ranked **2nd** in Thailand and **29th** globally.(Team) use **c++**

PROJECT

- **Tempest Wave - C++ Game Development** **Nov 2022 - Mar 2023**
 - Tech Stack: **C++**, **Raylib**
 - Developed a 2D arcade game utilizing C++ and Raylib library for graphics management.
- **SkillBridge - Full Stack Web Development** **Nov 2024 - Mar 2025**
 - Tech Stack: **React**, **NestJS**, **TypeScript**, **PostgreSQL**, **Drizzle ORM**, **Docker**, **Cypress**
 - Engineered an accessible job-finding platform for vulnerable groups with a robust backend architecture.
- **Inarch C - Software Testing** **Nov 2025 - Mar 2026**
 - Tech Stack: **Jest**, **Postman**, **NestJS Testing Module**
 - Achieved 90%+ code coverage by implementing automated Unit and API testing.
- **SCMC AssetManager - Full Stack Web Development** **Nov 2025 - Mar 2026**
 - Tech Stack: **TypeScript**, **React**, **NestJS**, **PostgreSQL**, **Docker**, **Nginx**, **Jest**, **Cypress**
 - Led the development of a centralized asset management system with multi-role authentication.

TEACHING ASSISTANT

- Instructed and evaluated students across diverse technical and theoretical subjects, including **microcontrollers**, **IoT**, and **discrete math**.
- Mentored junior TAs, managed individual practical exams, and graded major assignments to ensure academic standards.

RESEARCH ASSISTANT

- Selected for a highly competitive program to develop research-focused technical solutions.
- Developed "Glue Gap," a full-stack application (**React**, **NestJS**) integrating **Python** and **OpenCV** to analyze geological thin-section images and detect glue voids.
- Conducted research on the motion detection of underground substances using **Python**, **OpenCV**, and **advanced image segmentation techniques**.

INTERNSHIP

- Internship at **Sustainable Campus Management Center (SCMC)** as a **Full-Stack Developer**, June - October 2025.
- Developed and enhanced enterprise-level information systems to streamline internal management operations.
- Built a comprehensive **Full-Stack CCTV Management System** and an **automated data reporting platform**.
